

JOAN ESHKENAZI

Joan Eshkenazi creates geo-spiritual canvases and sculptures that communicate the poetic harmony of people and flora in nature, by blending her passion for nature into the realm of the fantastical with the real, as she mystically translates ethereal semi-abstracted forms to metamorphose into sublimely elegant colorful anthropomorphic shapes that symbolize the elements of nature: earth, water and sky. ■

CHAVA SHTRAYKHER

Chava Shtraykher paints transformative organic expressionist compositions, going beyond the requirements of everyday reality to create a world without time, without limits, and with endless space. In canvases replete with intense colors and rich textures that transcend lines and forms, she synthesizes the perfect aesthetic environment where color and movement in space crystallize to create entirely new dreamlike semi-figurative vistas. ■

MICHELLE LAVALLÉE

Painting en-plein air, Michelle Lavallée has traveled to France as well as touring the United States to paint her signature neo-impressionist landscape paintings that combine textural brushstrokes with a contemporary approach to color and composition. Painting a paradise on earth, these ravishing tableaux become incandescent icons to the lyricisms of nature as trees, flowers and water metamorphose into celestial objects of beauty. ■
